Reply from Clair Lawrence re: Tree On Golf Club Boundary. Ms Lawrence had responded to the Council's concern about the Oak tree that had been felled. Ms Lawrence said that WBC shared the Council's concerns but the tree was not subject to a TPO and it was not clear if it was on Golf Club land or not. Therefore WBC were unable to prevent the felling.

Request to Open Wharf Gate. The Great House had asked if the Wharf gate could be opened to allow a vintage car to access the Great House garden on 24 July. This was unanimously agreed.

WBC Gypsy & Traveller Preferred Options Plan. WBC were chasing for a reply from Sonning on the consultation. It was agreed that the Clerk would respond to the questionnaire confirming the Council's support for the document.

Press Release. WBC had issued a press release to explain the action that they had taken and the difficulties involved in relation to the travellers establishing themselves on a site in Blagrove Lane Wokingham. There had been two earlier planning applications for traveller pitches on the site, which had been refused. The applicant had now gone to appeal. However after the second application had been refused in April 2015 travellers had moved onto the site and WBC had issued a temporary stop notice to prevent any more caravans entering the site. Later a High Court temporary injunction was obtained, which had now expired. A planning enforcement order had been served but human rights legislation allowed the travellers six months in which to find another site and the applicant had appealed against the order. This had the effect of holding the notice in abeyance pending the outcome of the appeal. WBC had obtained a permanent court order to prevent further occupation but the court had allowed the travellers to connect to the water supply and put a gate on the entrance when they appealed against that decision. The two appeals would be heard together at a public Inquiry, possibly in early 2016. Until then nothing could be done.

New Electoral Forms. These forms were being sent out and everyone had to complete them even if there were no changes.

CIL Meeting September. This was for the Clerk and one Councillor. Several dates were being offered and WBC were asking for confirmation of representative's availability. 8716: HIGHWAYS.

Mr Evans said that some patch repairs had been made in some areas. There had been a near miss involving a bus mounting the pavement and nearly hitting a pedestrian in Pound Lane. The woman had reported the incident to the police and had spoken to Mr Evans. The problem had occurred when parents were parking on Pound Lane making it difficult for the bus to drive along and the driver had mounted the pavement to avoid a badly parked car. The Chairman agreed to speak to WBC regarding the parking problem. Mr Evans said that neighbourhood watch were about 100 short of obtaining the 60% vote in favour of the No Cold Calling Zone but some areas still had to be canvassed. The Chairman said that there was a vacancy for a school crossing person for about 1 hour morning and evening, training and equipment would be provided. Mr Runnalls had observed an overweight lorry in Charvil Lane, which had progressed along Thames Street. Mr Runnalls had taken a photo of the lorry and had spoken to the company. The representative had been surprised that this, usually careful driver, was involved and they had confirmed that there had been no delivery on the Sonning side of the Bridge. The company were now aware that they were being watched.

8717: RECREATION AND ENVIRONMENT W.G.

- a) Safety Checks. Mrs Pownall had checked the exercise machines and Mr Farnese had checked the play equipment.
- b) Water Drain Off Work. Mr Fisher had met with the second contractor who had different ideas to Henley Contracting and had provided schemes and quotes. These had been very expensive and Mr Fisher felt that it was important to get the right scheme for the field although this might take some time. The Chairman said that the school gully would be emptied on 28 July. The drain in Ligure Way was blocked but if it were cleared it might relieve the flow. The Chairman suggested that a small group should get together to progress this. He would also ask Mr Napper for his opinion. Mr Fisher would obtain additional quotes (everyone would be welcome to attend any meeting with the contractor) and keep everyone updated. The ground in the compound needed some work.
- c) Pavilion Drain Works. Mr Fisher said that Dyno-Rod had been unable to shift the blockage. Thames Water had been very helpful and had put a camera and dye down the drain to investigate and had identified the location of the blockage, which was on a bend. However, having spent two hours on site, Thames Water realised that, as it was a single premises drain, they could not carry out any more work and SPC would have to employ a contractor. Luckily the work that had been carried out had shifted the blockage and the three toilets in the pavilion were now flowing properly. Further rodding might be necessary and if this did not work three contractors would be asked to quote.

8718: TECHNICAL SERVICES.

Wharf Safety Checks. The Chairman had carried these out and commented that the boundary between the Great House and the Wharf was looking a mess.

The light outside parkway Drive, and the other light lower down Pound Lane, were still being obscured by overgrown greenery. It was agreed to ask Mr Collier to cut these both back. It was also noted that the trees overhanging the Deanery walls were far too low and obstructing the pathway. The Clerk would write to the owner asking him to attend to this and that SPC would do so if this was not carried out.

Mrs Jacobs said that the Ivy were leaving their large rubbish receptacles for several days at a time on the footpath alongside the High Street Pump and they were always gave off an offensive smell. The Chairman would speak to the management.

8719: ACTION LIST.

The Action List was reviewed and updated.

8720: DATE OF THE NEXT MEETING.
